About Conference

The **ICCECIP 2019** – *International Conference on Central European Critical Infrastructure Protection* organized by universities of **V4 and partner countries** participants will present their research results in the field of **Critical Infrastructure Protection and Security Science**. The deliberations of this year's conference will focus on problems of threats to the security of *Central Europe*.

The conference slogan "**With science for the peace"** is continuously suitable also for this year.

The **ICCECIP 2019** also serves to foster communication among researchers and engineers working in a wide variety of scientific areas with a common interest.

The aim objective of **ICCECIP 2019** is to present the latest research and results of scientists (*preferred students, PhD Students, and post-doc scientist*) related to *Critical Infrastructure Protection* topics. The deliberations of this year's conference will focus on problems of threats to the security of *Central Europe*.

The same historical and cultural past of the region, which has taken a common path of development over the past centuries, links our countries and paves the way for future cooperation.

The meeting will provide an opportunity to highlight recent developments and to identify emerging and future areas of growth in this exciting field. Also, the conference program covered infinite, oral presentations from scientists working in similar areas to establish a platform for collaboratíve research projects in this field.

Committee of **ICCECIP 2019** continues to make an effort to hold **ICCECIP 2019** conference successfully by working with the best editor and reviewer teams.
